1

Friendship Internship

Helene Dorn 7:46

2

Farm to Families

Kathy Roselli 10:03

One in four families with children in the United States is struggling to put food on the table. COVID-19 increased this number. Restaurants and other markets for food closed, initially hurting farmers. Farm to Families tells the story of the creative collaboration between Rogue Valley Farm 2 School, Fry Family Farm, locals schools, and community volunteers - joining forces to feed families in Southern Oregon's Rogue Valley.

3

With Love, Wyatt

Sabrina Morgan 9:00

A vampire psychologist finds out his new patient is the daughter he never knew he had.

4

Le Photomaton

Sadie Cibula 8:26

On her last day in Paris, a young American navigates the awkwardness of a new French love encounter compounded by a language barrier. This short was inspired by the movement "La Vanité", which represents the ticking time, the passing of youth. A wilting rose, smoke, an hourglass, a skull, a young woman and her reflection - what are these symbols in modern day? With words and symbols, this film expresses the teeter-totter feel and translational confusion of her coming-of-age --trying to speak between the "languages" of youth and maturity, French and English, present and memory, permanence and transience.

5

Hike to the Top of Mt. Lassen

Casey Bridgett 2:23

10-year old girl creates a movie about her family hike to the top of Mt. Lassen.

6

Imagination Man

Travis Marlatt 1:00

Anna Mendes 9:24
